OPEN LOOP PROPORTIONAL PRESSURE COMPENSATED BANKABLE FLOW REGULATORS

Connector to be ordered separately, see page 103.

Open loop proportional flow regulator 3 way compensated with priority function.

- Regulate the flow in proportion to an applied electrical current (REM, MAV or CEPS power amplifier).
- Flow regulation is independent both from load – POUT port – and pump flow variations. Load compensation is achieved by a spool compensator, which holds the pressure drop constant across the proportional spool.
- Emergency control.
- Coils protection IP66
- Standard connectors DIN 43650 ISO 4400, AMP Junior, and Deutsch
- Regulated flow rate 15 / 20 l/min
- Cast iron zinc plated body.
